PLS REFILE  
M/023/042

June 21, 1996

TO: Minerals File

FROM: Tom Munson, Reclamation Hydrologist *TR*

RE: Site Inspection, Western Minerals, Neal Jensen, Travertine Cove #2, 3 & 4 Mine,  
S/027/061, Millard County, Utah *#1*  
*M/023/042*

Date of Inspection: June 7, 1996

Time of Inspection: 1:00 p.m.

Conditions: Sunny, hot

Participants: Sam Coomb, operator; Wayne Hedberg, Tom Munson, DOGM

Purpose of Inspection: To inspect the site while in the area

When we arrived at this site, Sam Coomb, the operator was the only person at the site. We walked around and took pictures of the site. The disturbance at this site is probably about 4-5 acres. We will pace it another time to confirm the acreage. There does appear to be at least one or two stockpiles of topsoil. Wayne questioned whether they could really save much in the pit area as it is a rock outcrop through most of the area.
